

Defend against Sudden Cardiac Arrest

Join Hearts – Join Our Mission

To raise awareness about the risk of Sudden Cardiac Arrest (SCA) in student athletes and to provide free **Heart Hype™** screenings to include an **EKG** and **Echocardiogram** to help identify potential cardiac abnormalities commonly associated with SCA.

In the U.S., it's estimated each week 30 young adults die from Sudden Cardiac Arrest usually during physical activity, deaths that could easily be prevented with a simple 15-minute test. **Now here's your chance to help save a life.**
